

# TRIP TO BRAZIL ITINERARY

For this week's Around the World writing activity, imagine that you have three days to see the sights of Brazil that interest you the most. These could be anything: a soccer match in Rio de Janeiro, an Amazon wildlife tour, anything you want!

To do so, follow the directions below to help create an itinerary, which is useful to help plan and organize trips and vacations! Then click on the other buttons to find models for writing your itinerary and making your own trip map!

- Step 1** Open the blank itinerary document and fill out the 'general info' box with your name, destination, 3 sights you want to see, and your arrival and departure dates.
  
- Step 2** Looking at the map image, decide where you want to spend your first day and what you would like to see there. How will you be traveling? How will you prepare for the next day? See the model for an example if needed.
  
- Step 3** Taking two more sights, repeat Step 2 for Day 2 and Day 3 of your trip.
  
- Step 4** Print off the map document, and draw your path with a travel path with your marker matching your travel itinerary.
